

Batch Verification Record

Quality and analytical documentation for GLP3-RTA 20mg.

INDEPENDENT ANALYTICAL TESTING VERIFIED

Product & Record

PRODUCT	GLP3-RTA 20mg
APEXION VERIFICATION ID	AX-QV-RTA20-001
DOCUMENTATION SOURCE	Janoshik Analytical - independent laboratory report
SOURCE REFERENCE	Task 100209 / source batch 20250407

Documented Analytical Information

MATERIAL TESTED	Retatrutide lyophilised source material
IDENTITY	Retatrutide detected by common GLP-1 peptide blind test
MEASURED CONTENT	11.24 mg in the submitted laboratory sample
PURITY	98.301%
ANALYSIS DATE	29 January 2026

Verification Statement

Apexion BioLabs has reviewed and recorded the supporting independent analytical documentation for the Retatrutide source batch referenced above. The original laboratory report is retained within Apexion quality records and is not altered or re-issued as an Apexion laboratory report.

Scope & Transparency

This record concerns the tested lyophilised source material. The 11.24 mg result is the quantity measured in the submitted laboratory sample; it is not a finished-pen fill assay. No finished-pen sterility, endotoxin, microbiological quality or composition claim is made by this record.
