

Batch Verification Record

Quality and analytical documentation for SS-31 50mg.

SOURCE-BATCH DOCUMENTATION REVIEWED

Product & Record

PRODUCT	SS-31 50mg
APEXION VERIFICATION ID	AX-QV-SS31-001
DOCUMENTATION SOURCE	Supplier-issued analytical certificate and HPLC trace
SOURCE REFERENCE	Lot HB20250906 / manufacturing date 6 September 2025

Documented Analytical Information

MATERIAL TESTED	SS-31 (Elamipretide) source material
PURITY (HPLC)	99.01%
PEPTIDE CONTENT	95.10% on anhydrous basis
BACTERIAL ENDOTOXIN	Conforms to stated <10 EU/mg specification
HEAVY METALS	Conforms to stated <=20 ppm specification

Verification Statement

Apexion BioLabs has reviewed the supplier-issued analytical certificate and supporting HPLC trace for the source lot referenced above. The original documents are retained within Apexion quality records and are not presented as independent laboratory reports or re-issued as an Apexion certificate of analysis.

Scope & Transparency

This record summarises the analytical fields shown on the supplier-issued source-batch documentation. It does not represent independent third-party testing by Apexion and does not establish finished-pen sterility, microbiological quality or finished-product composition.
