Verification Statement

Apexion BioLabs has summarised the supplied independent laboratory information for a source-material sample. The original report is retained separately and is not altered or re-issued as an Apexion laboratory certificate.

Documentation Transparency

Blend-content analysis. The supplied report does not state a purity percentage.

The source-material result does not certify an Apexion finished pen or establish a match to any Apexion product batch. Supplier identity and supply-chain identifiers are omitted from this customer summary; originals are available for verification.
